

Newsletter 78: HIV, AIDS, Covid19 and Fauci Today

Dear Readers,

In this newsletter I want to share something I wrote in early 2020 at the very beginning of the dystopian horror that has been falsely termed a pandemic. This centers around the dark figure who for almost four decades has been at the center of vaccine research, Anthony Fauci, the chief pandemic adviser to both Presidents Trump and Biden as well as being head of the government's National Institute of Allergy and Infectious Diseases (NIAID). Fauci is paid more than any other government employee even the President. Moreover, his wife is chief of medical ethics at the same agency.

What is notable is the fact that the same fraudulent, and even criminal, playbook that Fauci used to garner billions in taxpayer research dollars for AIDS, he is using to promote seeming endless jabs of experimental genetic-engineered mRNA chemicals into our bodies, whose effects have caused an unprecedented number of deaths and serious adverse illnesses. In the 1980'S Fauci lied that AIDS was highly contagious. He lied that toxic AZT would prevent healthy people from ever getting AIDS. He lied that pregnant women would benefit from AZT treatment to protect them. An estimated several millions have died because of Fauci's lies on AIDS. His record is malicious to say the least. Yet there is a reason he is considered "untouchable" by every President since Reagan. Fauci is part of the secretive eugenics cabal around Klaus Schwab of the Davos World Economic Forum and his notorious Great Reset along with Bill Gates and the WHO. Most of the world is blissfully ignorant of what they have done in the two years since Covid19 erupted on the world stage.

The relentless censorship of the Internet and social media by the private corporate social media companies since the 2020 Corona virus is alarming and damaging and can only be compared with book burnings in the Germany of the 1930s, or the Medieval Inquisitions of the Catholic Church with book burnings and torture of heretics.

The Remarkable Doctor A. Fauci

By F. William Engdahl

15 April 2020

Dramatic political and social decisions are being made across the United States and around the world on what emergency quarantine measures and other steps must be taken. In many cases the radical and severe measures, such as shutting down the world economy, are being justified by COVID-19 case projections of morbidity into the future. If there is one person who is the face of the current strategy of dealing with the coronavirus in Washington it is the Director of the US National Institute for Allergy and Infectious Diseases (NIAID) of the NIH, Dr. Tony Fauci. What major media conveniently leave out in discussing Fauci's role is his highly controversial and conflicted history since he first joined NIAID in 1984 during the beginnings of the AIDS panic. His role then sheds valuable light on his remarkable and highly controversial actions today .

Tony Fauci, a leading member of the White House Coronavirus Task Force, is being promoted by major US media such as CNN, MSNBC or the New York Times as the great expert on all related to the Covid19 outbreak. He had dismissed the President's efforts to promote a known malaria medication as treatment for severe corona patients as "anecdotal," even though seven years before he backed the same drug. He has publicly taken projections from an institute created in Washington State by the Gates Foundation, the same foundation that virtually owns the WHO and owns major stakes in the leading vaccine makers, to claim that up to 200,000 Americans could die from COVID19. Fauci stated that COVID19 is "probably about 10 times more lethal than the seasonal flu," which would mean 300-600,000 coronavirus deaths this year, at the same time in a respected medical journal he compared Covid-19 as similar to seasonal flu in morbidity. When questioned how long the shutdown of much of the US economy must last, Fauci replied only when there is zero new covid19 positive tested cases, something impossible given the defective [testing](#). He has also backed direct human tests of novel vaccines with no prior animal tests, including with radical non-tested mRNA gene-edited vaccines.

Fauci has more influence over US national policy on the unprecedented Covid-19 pandemic than anyone, including the President. Much of media treats him with awe as an unimpeachable scientist, one of the world's finest. A closer look at Anthony Fauci's career gives a starkly different picture, a very alarming one in fact.

America's AIDS Czar

Tony Fauci has held the top post at the NIAID in Washington for an astonishing 36 years. Today he is well past retirement age at 79, and holds the funds to determine which drug companies or university researchers will get precious government funds, or not, from NIAID's annual \$5 billion budget.

Let's go back to 1984 when Fauci was named head of NIAID during the Reagan era. That year an AIDS researcher, Robert Gallo, working under Fauci, held a press conference to announce that he had "discovered" the AIDS virus. He said it was HIV— human immunodeficiency virus. The shocking announcement which went around the world, was in complete disregard of scientific procedures of prior peer-reviewed published scientific evidence, including the required electron microscope analyses. It was a case of "science by press conference" as a critical scientist, Prof. Peter H. Duesberg described it. Duesberg was an award-winning researcher at Berkeley who isolated the first cancer gene through his work on retroviruses in 1970, and mapped the genetic structure of [these viruses](#).

For Gallo and Fauci, that was unimportant as millions in research funds flowed into NIAID to research the new virus, HIV. Fauci and Gallo claimed that AIDS was highly contagious, also by sexual transmission, especially among homosexual men. Notably, before the Gallo claim to have found the HIV AIDS virus, NIAID had been doing research on the role of drugs, poppers or nitrites, proven immune-suppressants, in the deaths of the earliest AIDS patients. That was quickly dropped in favor of researching a "cure" for AIDS. Media was told that AIDS was the "public health threat of the Century." Gallo went on to make millions on his patented blood test for HIV, despite the fact that the test was often giving false positives and did not test directly for the alleged virus but for active antibodies, something immunology practice said was not valid, as antibodies merely suggested a past infection response and not necessarily presence of HIV. At this time in the 1980'S Fauci was responsible for AIDS research at NIAID, a post he still holds.

False Tests?

The issue of HIV/AIDS tests is central. While a frightened world was clamoring for a test, Gallo and Fauci promoted their deeply flawed tests of antibodies. In 2006 Gallo claimed, "HIV tests were highly accurate from the time they were developed in 1984 and have become much more accurate over time..." Highly accurate in 1984 but more accurate than "highly" over time? Gallo added in

response to criticism, “A PCR test for the presence of the virus itself can accurately determine a child’s HIV status.”

In a sharp rebuttal of the Gallo claims, claims endorsed by Fauci and the NIAID as well as CDC, Roberto A. Giraldo, MD and Etienne de Harven, MD, the scientist who produced the first electron micrograph of a retrovirus, pointed out that both the ELISA and Western blot, and a genetic test, the PCR or ‘Viral Load’ test,” the two major tests used to determine if one has AIDS, are invalid. “None of these tests detect the HIV virus itself, nor do they detect HIV particles.” They add that there are “more than 70 different documented conditions that can cause the antibody tests to react positive without an HIV infection.” Among the false positive cases are influenza, the common cold, leprosy or the existence of [pregnancy](#). The same PCR tests are used today to determine SARS-CoV-2-positive.

They [concluded](#), “The fact that after 25 years of intense research HIV has been neither isolated nor purified in terms of classical virology indicates to us that the infectious view of AIDS as a contagious viral disease is based on an apparently non-existent microbe!”

Giraldo and de Harven declared, “The alleged existence of HIV was asserted from the study of proteins, reverse transcriptase activity (RT), and RNA fragments that were found in culture supernatants, not from the direct analysis of purified [viral particles](#).”

The CDC requires a positive antibody test for HIV to determine AIDS in the USA. Yet in Africa since 1985 the WHO requires no HIV test or any other laboratory test. Merely the patient’s symptoms suffice and that can include weight loss, chronic diarrhea, prolonged fever, persistent cough and such, symptoms endemic to societies with chronic poverty, malnutrition and lack of sanitation.

Yet this fraud has shaped the career of Tony Fauci for more than 35 years. Fauci as head of NIAID has taken millions from the Bill & Melinda Gates Foundation as well as the Clinton Foundation, along with tens of billions from US taxpayers for this bogus research. Suspiciously, the 2006 article by Giraldo and de Harven was suddenly retracted by the journal in 2019 just before the coronavirus Wuhan outbreak.

Despite the fact that he knew the established rules of virology, Fauci, as head of NIAID, recommended the Burroughs Wellcome chemotherapy drug, AZT as a “preventive drug” for HIV diagnosed patients, even without symptoms! Burroughs Wellcome gave NIAID their study that was deliberately biased for

AZT. Fauci even backed AZT for pregnant women despite the grave risk to the fetus. One mark of pregnancy in all women is a higher level of antigens as the natural immune system fights any infection to protect the fetus. AZT or Retrovir, a failed leukemia drug, has been proven to be a [highly toxic drug](#). It was approved for AIDS testing in a record 5 days by Fauci and the US Government in 1987. Today despite more than thirty years funded research and billions of dollars, no effective vaccine for HIV/AIDS exists.

Fauci and Gilead

According to people who have studied the role of Tony Fauci as head of NIAID, his focus has been what is called scientific reductivism, described as “a 19 Century-style, single-germ theory for a complex web of factors that collapsed the immune systems of a subset of gay men in the early 1980s.” He has refused to explore the documentation that a variety of lethal drugs and other toxins such as nitrites could play a role. As a result he has wasted tens of billions of taxpayer dollars since 1984 on dead end experiments. One of his most nefarious deeds was his collaboration with Gilead Sciences.

Not satisfied with having developed a false positive test for AIDS and having gained FDA fast-track approval for AZT to treat HIV-positive patients with serious illness symptoms, Fauci decided to collaborate with Gilead (as in the Biblical “balm of Gilead”) on what came to be called PrEP experiments.

Fauci in 2007 began to finance clinical trials of the AZT drugs in HIV “negatives,” on the theory the chemotherapy would “protect” them from becoming “positive.” That is, testing toxic HIV drugs on otherwise healthy persons to “insure” they never got AIDS. If it sounds mad, it was. Gilead supplied the drug, Truvada, to NIAID between 2007-2012 for Phase III human tests on HIV negative subjects. Four tests of at least 2,000 and up to 5,000 test subjects each, were done. The project was called “pre-exposure prophylaxis” or “PrEP.” Healthy subjects were given doses of chemotherapy drug Truvada on the thesis it could prevent them from one day getting HIV-positive. The US Government’s CDC, in its May 2014 recommendation urged physicians to prescribe Truvada for negatives in the so-called “risk groups,” an official government [imprimatur](#) for an extremely profitable drug.

The FDA ignored two of the four Truvada tests that had failed and been halted. Despite that and owing to data manipulation by Fauci’s NIAID and Gilead, the FDA approved the dangerous Truvada for PrEP. Today Gilead lists the side effects of Truvada: Kidney problems, including kidney failure; worsening Hepatitis B; too much lactic acid in your blood (lactic acidosis), which can lead

to death; severe liver problems, which can lead to death; bone problems. They [state](#) that Truvada “can help reduce the risk of getting HIV-1 through sex, when taken every day and used together with safer sex practices.”

The Fauci-Gilead scam of promoting Truvada for healthy people to “reduce risk” of HIV is a marker for the level of medical malpractice and in some cases evident criminal abuse of human health that the current White House coronavirus guru, A. Fauci, represents.

Fauci and COVID-19

In October, 2019 Fauci and his NIAID got \$100 million from the Gates Foundation to develop “gene-based” therapies for HIV and sickle cell disease. That means to the time of the first claims of novel coronavirus in Wuhan China, Fauci was still [promoting](#) a 35-year fraud around HIV. Fauci is also part of the Gates Foundation cabal. In 2012 Fauci was [named](#) one of the five Leadership Council of the Gates Foundation-created Global Vaccine Action Plan.

This is highly relevant to his role today as the Trump Administration coronavirus “pope.” Has his NIAID or any other laboratory in the world rigorously, with electron microscopy, isolated and purified samples of patients tested SARS-CoV-2 positive for Covid-19? Or are the virus proofs as faulty as Fauci and the AIDS clique have made for HIV?

In addition NIAID is working with Gilead to conduct Phase II human trials on Gilead’s drug, Remdesivir, as a potential treatment for hospitalized adult patients diagnosed with COVID-19.

A coincidence?

Relevant also is the fact that all top scientific advisers to the US President’s Task Force on COVID-19 are tied since decades to the bogus and destructive HIV/AIDS research and propagation of false theories. Alongside Tony Fauci of NIAID stands Deborah L. Birx, M.D., Obama appointee as US Global AIDS Coordinator who [worked](#) under Tony Fauci at NIAID from 1983-1986.

Robert Redfield is the current Director of the Centers for Disease Control and Prevention, center of the recent coronavirus testing scandal. Redfield cofounded, with the corrupt and discredited Robert Gallo, former Fauci colleague in the AIDS scandals of the early 1980’s at NIH, the Institute of Human Virology based at University of Maryland. Redfield and Birx also coauthored numerous scientific articles on purported HIV vaccines, none of which have been effective.

Fauci, Birx and Redfield, all incestuously complicit in the HIV/AIDS frauds and malpractice, today hold the future of not only American public health, but also of the entire world economy in their hands. Not a good situation. As their work on the proved HIV=AIDS fraud shows, the coronavirus tests do not at all prove presence of a deadly virus in any patient. If this is so, it is perhaps the greatest criminal fraud in medical history.

Coronavirus and the Gates Foundation

By F. William Engdahl

18 March 2020

Arguably, no one has been more active in promoting and funding research on vaccines aimed at dealing with coronavirus than Bill Gates and the Bill and Melinda Gates Foundation. From sponsoring a simulation of a coronavirus global pandemic, just weeks before the Wuhan outbreak was announced, to funding numerous corporate efforts to come up with a novel vaccine for the apparently novel virus, the Gates presence is there. What does it actually entail?

We must admit that at the very least Bill Gates is prophetic. He has claimed for years that a global killer pandemic will come and that we are not prepared for it. On March 18, 2015 Gates gave a TED talk on epidemics in Vancouver. That day he wrote on his blog, “I just gave a brief talk on a subject that I’ve been learning a lot about lately—epidemics. The Ebola outbreak in West Africa is a tragedy—as I write this, more than 10,000 people have died.” Gates then added, “As awful as this epidemic has been, the next one could be much worse. The world is simply not prepared to deal with a disease—an especially virulent flu, for example—that infects large numbers of people very quickly. Of all the things that could kill 10 million people or more, by far the most likely is an [epidemic.](#)”

That same year, 2015, Bill Gates wrote an article for the New England Journal of Medicine titled, “The Next Epidemic: Lessons from Ebola.” There he spoke of a special class of drugs that “involves giving patients a set of particular RNA-based constructs that enables them to produce specific proteins(including antibodies).Although this is a very new area, it is promising because it is possible that a safe therapy could be designed and put into large-scale

manufacture fairly rapidly. More basic research as well as the progress of companies like Moderna and CureVac could eventually make this approach a key tool [for stopping epidemics.](#) Moderna and CureVac both today receive funds from the Gates Foundation and are leading the race to develop an approved COVID-19 vaccine based on mRNA.

2017 and Founding of CEPI

A global flu-like pandemic in fact is something that Gates and his well-endowed foundation have spent years preparing for. In 2017 during the Davos World Economic Forum, Gates initiated something called CEPI, the Coalition for Epidemic Preparedness Innovations, together with the governments of Norway, India, Japan, and Germany, along with the Wellcome Trust of the UK. Its stated purpose is to “accelerate the development of vaccines we’ll need to contain outbreaks” [of future epidemics.](#) He noted at the time that “One promising area of vaccine development research is using advances in genomics to map the DNA and RNA of pathogens and make vaccines.” We will return to that.

Event 201

By 2019 Bill Gates and the foundation were going full-tilt boogie with their pandemic scenarios. He made a Netflix video which made an eerie imaginary scenario. The video, part of the “Explained” series, imagined a wet market in China where live and dead animals are stacked and a highly deadly virus erupts that spreads globally. Gates appears as an expert in the video to warn, “If you think of anything that could come along that would kill millions of people, a pandemic is our greatest risk.” He said if nothing was done to better prepare for pandemics, the time would come when the world would look back and wish it had invested more into potential vaccines. That was weeks before the world heard about bats and a live wet market in Wuhan [China.](#)

In October, 2019 the Gates Foundation teamed up with the World Economic Forum and the Johns Hopkins Center for Health Security to enact what they called a “fictional” scenario simulation involving some of the world’s leading figures in public health. It was titled Event 201.

As their website describes it, Event 201 simulated an “outbreak of a novel zoonotic coronavirus transmitted from bats to pigs to people that eventually becomes efficiently transmissible from person to person, leading to a severe pandemic. The pathogen and the disease it causes are modeled largely on

SARS, but it is more transmissible in the community setting by people with mild [symptoms.](#)”

In the Event 201 scenario the disease originates at a pig farm in Brazil, spreading through low-income regions and ultimately explodes into an epidemic. The disease is carried by air travel to Portugal, the USA and China and beyond to the point no country can control it. The scenario posits no possible vaccine being available in the first year. “Since the whole human population is susceptible, during the initial months of the pandemic, the cumulative number of cases increases exponentially, doubling every week.”

The scenario then ends after 18 months when the fictional coronavirus has caused 65 million deaths. “The pandemic is beginning to slow due to the decreasing number of susceptible people. The pandemic will continue at some rate until there is an effective vaccine or until 80-90 % of the global population has been exposed.”

Event 201 Players

As interesting as the prescient Gates-Johns Hopkins Event 201 fictional scenario of October, 2019 may be, the list of panelists who were invited to participate in the imaginary global response is equally interesting.

Among the selected “players” as they were called, was George Fu Gao. Notably, Prof. Gao is director of the Chinese Center for Disease Control and Prevention since 2017. His specialization includes research on “influenza virus interspecies transmission (host jump)... He is also interested in virus ecology, especially the relationship between influenza virus and migratory birds or live poultry markets and the bat-derived virus ecology and [molecular biology.](#)” Bat-derived virus ecology...

Prof. Gao was joined among others at the panel by the former Deputy Director of the CIA during the Obama term, Avril Haines. She also served as Obama’s Assistant to the President and Principal Deputy National Security Advisor. Another of the players at the Gates event was Rear Admiral Stephen C. Redd, Director of the Office of Public Health Preparedness and Response at the Centers for Disease Control and Prevention (CDC). The same CDC is at the center of a huge scandal for not having adequate functioning tests available for testing cases of COVID-19 in the USA. Their preparedness was anything but laudable.

Rounding out the group was Adrian Thomas, the Vice President of scandal-ridden Johnson & Johnson, the giant medical and pharmaceutical company.

Thomas is responsible for pandemic preparedness at J&J including developing vaccines for Ebola, Dengue Fever, HIV. And there was Martin Knuchel, Head of Crisis, Emergency & Business Continuity Management, for Lufthansa Group Airlines. Lufthansa has been one of the major airlines dramatically cutting flights during the COVID-19 pandemic crisis.

All this shows that Bill Gates has had a remarkable preoccupation with the possibility of a global pandemic outbreak he said could be even larger than the alleged deaths from the mysterious 1918 Spanish Flu, and has been warning for at least the past five years or more. What the Bill & Melinda Gates Foundation also has been involved in is funding development of new vaccines using bleeding-edge CRISPR gene-editing and other technologies.

The Coronavirus Vaccines

Gates Foundation money is backing vaccine development on every front. Inovio Pharmaceuticals of Pennsylvania received \$9 million from the Gates-backed CEPI, Coalition for Epidemic Preparedness Innovations, to develop a vaccine, INO-4800, which is about to test on humans in April, a suspiciously rapid time frame. In addition Gates Foundation just gave the company an added \$5 million to develop a proprietary smart device for intradermal delivery of the [new vaccine](#).

In addition Gates Foundation monies via CEPI are financing development of a radical new vaccine method known as messengerRNA or mRNA.

They are co-funding the Cambridge, Massachusetts biotech company, Moderna Inc., to develop a vaccine against the Wuhan novel coronavirus, now called SARS-CoV-2. Moderna's other partner is the US National Institute of Allergy and Infectious Diseases (NIAID), a part of the National Institutes of Health (NIH). Head of NIAID is Dr Anthony Fauci, the person at the center of the Trump Administration virus emergency response. Notable about the Fauci-Gates Moderna coronavirus vaccine, mRNA-1273, is that it has been rolled out in a matter of weeks, not years, and on February 24 went directly to Fauci's NIH for tests on human guinea pigs, not on mice as normal. Moderna's chief medical adviser, Tal Zaks, argued, "I don't think proving this in an animal model is on the critical path to getting this to a [clinical trial](#)."

Another notable admission by Moderna on its website is the legal disclaimer, "Special Note Regarding Forward-Looking Statements: ...These risks, uncertainties, and other factors include, among others: ... the fact that there

has never been a commercial product utilizing mRNA technology [approved for use.](#) In other words, completely unproven for human health and safety.

Another biotech company working with unproven mRNA technology to develop a vaccine for the COVID-19 is a German company, CureVac. Since 2015 CureVac has received money from the Gates Foundation to develop its own mRNA [technology.](#) In January the Gates-backed CEPI granted more than \$8 million to develop a mRNA vaccine for the [novel coronavirus.](#)

Add to this the fact that the Gates Foundation and related entities such as CEPI constitute the largest funders of the public-private entity known as WHO, and that its current director, Tedros Adhanom, the first WHO director in history not a medical doctor, worked for years on HIV with the Gates Foundation when Tedros was a government minister in Ethiopia, and we see that there is practically no area of the current coronavirus pandemic where the footprints of the omnipresent Gates are not to be found. If that is to the good of mankind or grounds to be worried, time will tell.
